

OTOMATIC

Become our distributor !

Do you want to become a distributor of DPF cleaning machines in your country?

We are constantly expanding the network of distributors of our machines and we will be happy to provide more detailed information about how to become a distributor.

What we offer :

Distributors are our partners and can count on full support from us:

- A team of English-speaking experts providing support in the field of training, marketing and service
- Promotional tools
- Products easy to use, software available in the local language

What we expect :

We are looking for business partners in various regions of Europe.

The distributor should be knowledgeable about the market, including local laws, and have mastery over the industry within which the product is being sold.

Did we spark your interest?
