Product description:

- hot water high-pressure device,
- uses the phenomenon of hydrodynamics of turbulent water flow, and the force of the compressed air pulse from the compressor,
- it works perfectly with DPF Active Matic cleaning agent reducing the surface tension of water, thanks to which the particles of the cleaning agent are more effective in removing dirt from the surface being cleaned,
- it cleanses particulate filters from soot, ashes and oils.

Intended use :

- DPF / FAP / CAT filters
- passenger cars and vans up to 3.5 T

Technical parameters – DPF Smart:

- **400 V supply voltage:**
water pump
water heaters
- **tank :** 110 l
- **control panel :** colored touch screen
- **back pressure test before and after cleaning (mbar):**
- **printing cleaning efficiency reports:**
online report generator (partner zone)
- **drying system:** none
- **parameters of the cooperating compressor:** up to 10 bar (not included)
- **dirty water filtration system:** internal, integrated with the machine (one filtration tank)
- **installation of a diesel particulate filter – passenger car:** pneumatic quick coupler
- **type of material used:** stainless steel
- **external dimensions of the cabin (height x width x depth):** 230×100×90 cm (without filtration tanks and control panel)

The DPF Smart set contains:

- DPF Smart cleaning machine
- set of connection adapters for particulate filters (cars and vans)
- endoscope - mini USB inspection camera
- a set of cartridges for the dirty water filtration system
- cleaning agent (2 x 5l)
- specialist pen for steel filter housing
- training

Set price and financial settlement:

- **Net price: 11.500 GBP (only for EU valid VAT number)**
- **I payment** in the amount of 3.500 GBP payable up to 7 days from the date of order
- **II payment** in the amount of 8.000 GBP, payable at the latest on delivery of the goods
